The District Commissioner ,
Jerusalem District.

Sir,

I have the honour to submit the following incident which I consider a trespas on the STATUS-CUO in the church of the Holy Sapulechar.

The Arminians have started repairs within the Holy Sapulechar in the Grotto of the Cross without any right to do without our consent.

As you are awaree, that onrpresent circumstances do not allow us to enter into litigation prevent such an act, and we are therefore appealing to yourprotection and support and humbling applying for an order to stop any such repairs and investigate the matter in any manner you may find fit and just.

Hoping that our application will meet with your support and help and requesting that you may kindly treat this matte as urgent.

If there are any urgent repaires we request that British Government may make same on our behalf.
